Volunteer and Patient Database

Clinical Unit,
Munich, Germany

Remarks

A given subject may have more than one diagnose and may appear under two diseases. Within a diagnosis, the sub-categories are exclusive, i.e., a given subject appears in only one category of the disease class. Due to a few missing data, the sum of individual numbers may be lower than the total sum.

NOS = no other specification

| | | |
|----------------------------------------|------------------------|-------|
| subjects total | | 16342 |
| gender | male | 8671 |
| | female | 7671 |
| age | 18-50 | 9606 |
| | 50-60 | 2671 |
| | 60-70 | 2271 |
| | > 70 | 654 |
| BMI | 30-40 | 2097 |
